

The following is a short guide to sign up for GitHub CoPilot as a CPTC Student.

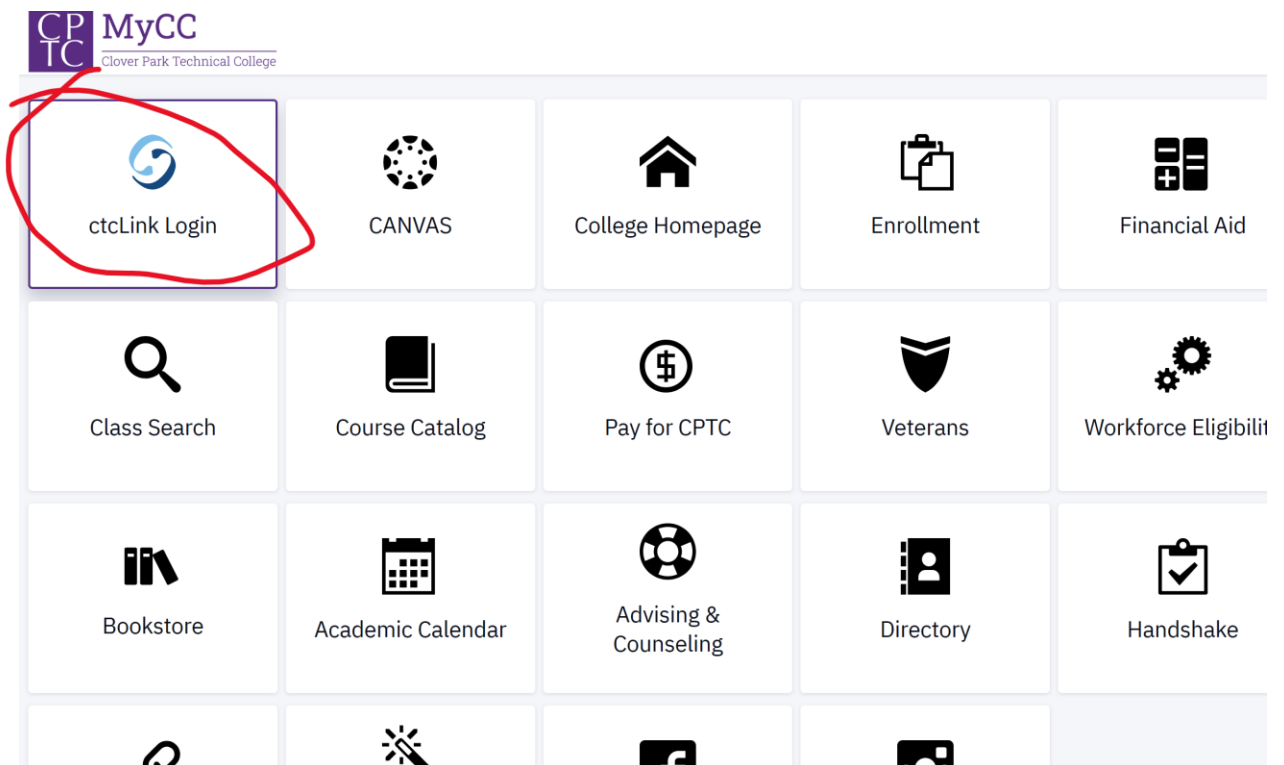

First sign up for the GitHub Student Developer pack at <https://education.github.com/pack>

This will require you to verify your student status. We can do that by taking a picture of your current term schedule. See the steps below to get your schedule

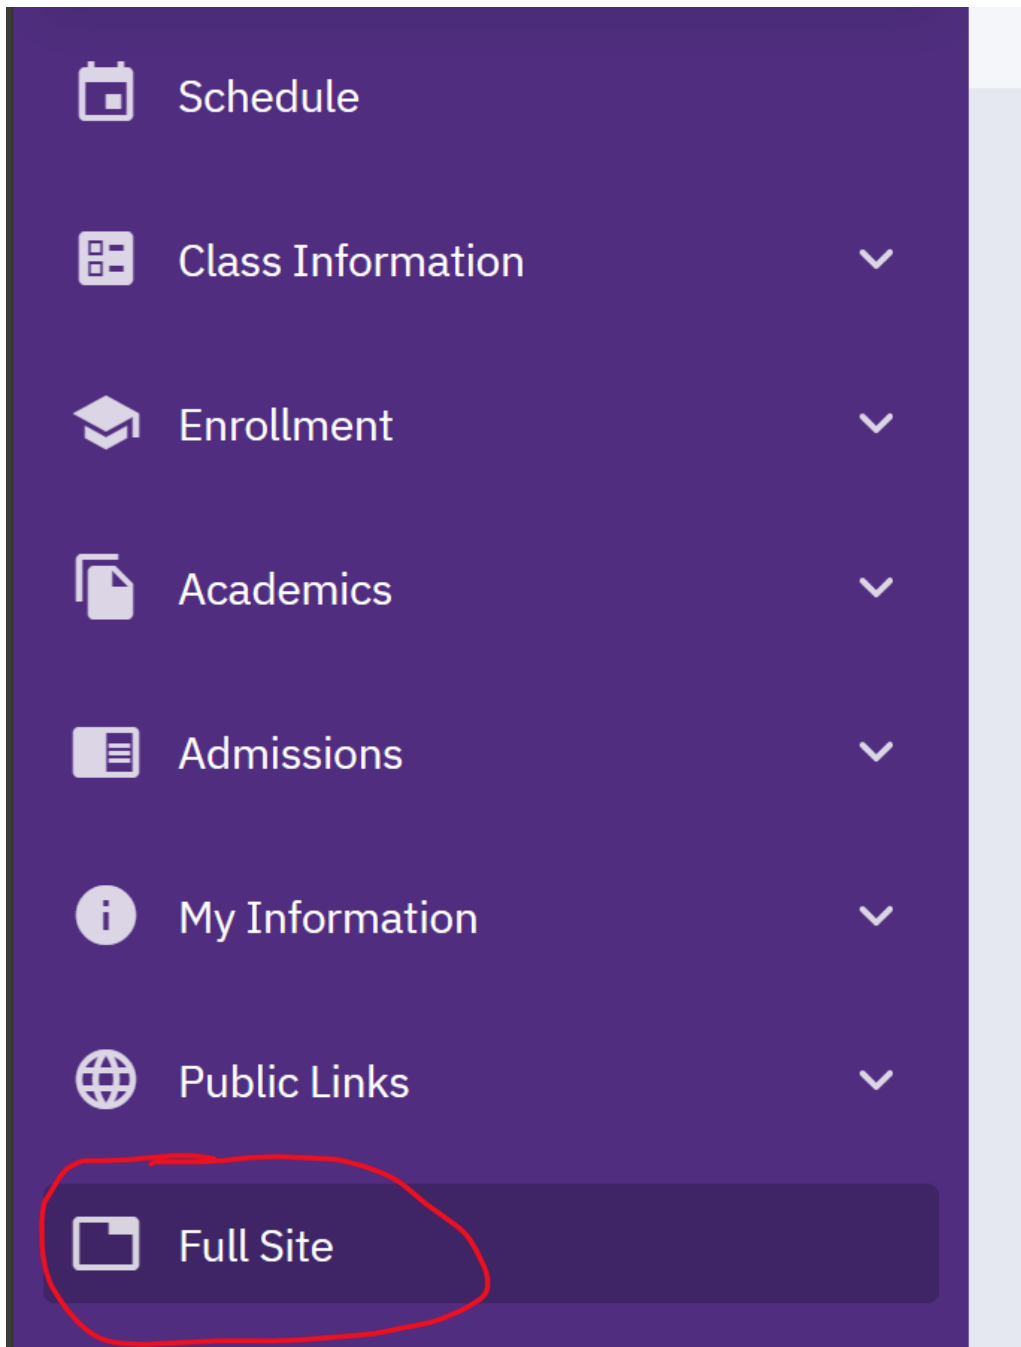

1. Go to the CPTC main website, <https://www.cptc.edu> and click the CTCLink in the top right corner

2. Log into ctcLink using the ctcLink login square (the first square in the image below)

3. Once you are logged in, click on the “Full Site” link in the left hand navigation at the bottom

4. Then go to Manage Classes

Menu ▾

Search in Menu

Message Center

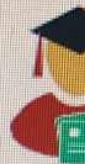

2 To Do

Manage Classes

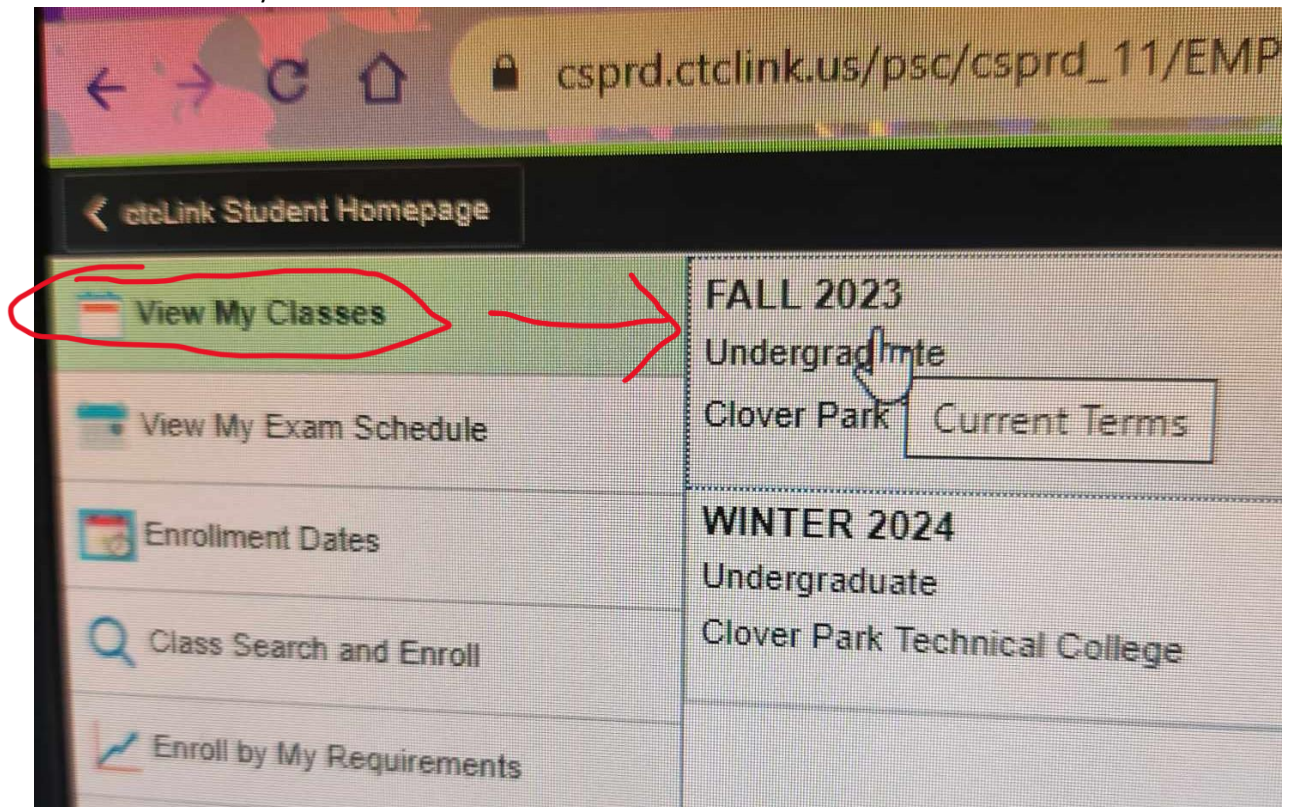

Finance

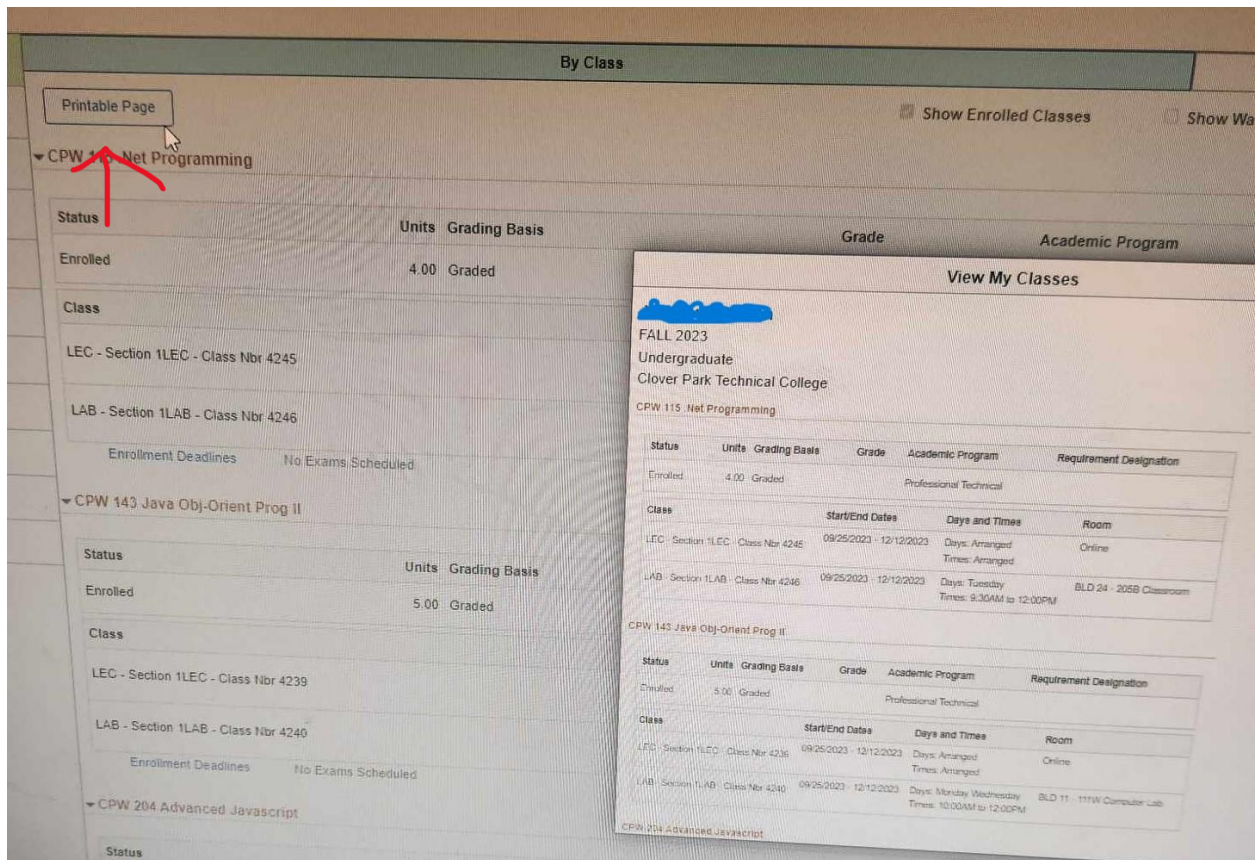

Academic Records

- Next click "View My Classes" and choose the current term

- Click Printable Page and you can save it as a PDF

7. Once you submit to GitHub you will get a notification if it was successful

You've already submitted  
2 requests

Approved

Submitted Nov 16, 2023

Congrats! Your request for [REDACTED] was approved and your benefits will be available soon.

Rejected

Submitted Nov 16, 2023

8. It may take some time to fully verify your account. Once you are fully verified, if you still do not have GitHub Copilot Pro, you can visit this link: [https://github.com/github-copilot/free\\_signup](https://github.com/github-copilot/free_signup)
